

Joint Master`s Degree Programme in European Business and Finance between the UNWE and Nottingham Trent University – United Kingdom

On September, 27th, 2007 the UNWE has obtained an official four-year accreditation for a Joint Master`s Degree Programme in European Business and Finance with the Nottingham Trent University – United Kingdom. In September 2009 and July 2012 the Programme was consecutively revalidated for a new three-year period.

In 2013 the fifth alumni of the Programme has been graduated. The education in European Business and Finance provides preparation for successful managers in the pan-European business environment. In the Programme are reviewed financial and business topics at operative and strategic level.

Duration of education: 2 years (the admission is in September of the relevant academic year)

1. First academic year

During the first academic year the education is implemented at the UNWE – Sofia. In this period the students study disciplines related to the business functioning – Finance, Human Resources Management and Marketing. In particular, the modules studied in the first year of education are Financial Risk Management, European Management of Human Resources, International Marketing, International and European Business Environment Comprehension, International Finance, European Managerial Accountancy, International and European Business Law, etc.

2. Second academic year

During the first semester of the second academic year the education is implemented at the Nottingham Business School of Nottingham Trent University – United Kingdom in compliance with the academic plan approved by the same university. In this period the students have the opportunity to study disciplines related to the business functioning at strategic level.

During the second semester of the second academic year the students implement an internship before their graduation, elaborate and defend a Master`s thesis. The choice of a topic for the Master thesis is related to a particular research issue.
