

WEB Student

You can find actual information about your student status, exams and examinations results if you log into the information system WEB STUDENT in the UNWE website. For the purpose you need a PIN or PFN as well as a faculty number. You obtain a faculty number when you enroll as students at the UNWE and PIN/PFN – when you are issued an Identification Document from the Ministry of Interior – Sofia. The same information as well as a lot of additional one you can find also directly by the information system STUDENT on the ground floor of the university. A faculty number and PIN/PFN are also needed for entry.
